AZTEC PROPANE BURNISHER 21"

The aggressively priced LowRider burnisher has a rugged, solid steel body design with an ultra low 4" (10cm) profile for buffing and polishing under racks and hard to reach areas. The LowRider will burnish floors at up to 33,000 sqft/hr (3065 m²hr) and includes an advanced composite polymer pad driver and dust control upgrade. **LOWEST EMISSIONS IN THE INDUSTRY** for 10+ years. All equipment and engine conversions are proudly made in the USA.

- PurepowerLPG 600 Series engine with battery key start
- Green certifications: EPA, CARB, LEED, CE
- US green building council LEED IEQ credit 3.4 requirements
- Optional engine meeting Blue Sky standards

Standard Features :

Ultra Low Profile - 3 3/4" for Burnishing
Hard to Reach Areas Rugged, Patented
Solid Steel Body Powered by certified
18HP 603cc Kawasaki Engine with Low
Oil Shut Down and Safety

Regulator Fuel System :

Premium Catalytic Muffler for Ultra
Low CARB and EPA Emissions 12 Volt
Battery Key Start Adjustable Comfort
Handle with Click-n-Lock Throttle
Cable Advanced Polymer Composite
Pad Driver Adjustable Back Wheels
for Controlled Pad Pressure Patented
Airtight Floating Dust Skirt* Meets US
Green Building Council LEED IEQ

Credit Requirement :

Compliant CE, CARB, EPA & GS-42 Low
Oil Shutdown Safety Regulator Fuel
System Hand Release Pad Lock

The LowRider Spray Mist burnisher is for use on vinyl composite tile (VCT) and polished concrete floors. The LowRider Spray Mist system can be used for spray cleaning with a cleaner/maintainer chemical or for concrete restoration with a concrete restorer solution.

Advantages of using the Spray Mist system with the Aztec LowRider include less chemical usage for cleaning and maintaining hard floors, longer time between VCT stripping and concrete sealing cycles, and longer hard floor life. The Spray Mist System also offers time and labor savings while removing ground in dirt, scuffs and minor scratches in performing daily and weekly maintenance.
