QUARTZ RENEW STARTER KIT

Quartz Renew is a system designed to pick up where diamond polishing finished or correct small damaged areas and bring the material up to match the factory finish. The 3-step Quartz Renew polish chemicals puts texture back into the repair area and removes any residual hazing from polishing. Quartz Renew is also a fine method for removing common issues like suction cup marks, A-frame marks, acetone burns, stains and other surface flaws or dings.

Stock No.	Description
