## Manta 100 Aluminium Saw

- Light, accurate, versatile, completely built in aluminium
- Extremely accurate with head sliding by means of linear ball bearings on two chromium-plates steel pipes and rectified
- It is equipped with a submersed pump inside the base for disc cooling water regeneration
- Vertical motion of the head by means of hand-wheel for stable and fast control
- Inclinal head for 45° cuts. It is equipped with flexible legs to make the transport easier
- Blade size : 350mm (14")
- 1,000mm (39") table
- Rotation speed : 1,750 rpm
- 72 kg (159lbs.)
- 2.2 kW - 220 V x 1
- Crate Size : 155 x 66 x 77cm (61" x 26" x 30")
- Arbor : 30mm

38"  
TILE

\$ 2783.99

Stock No. 990154

**NEW & IMPROVED CUTTING HANDLES!**  
2 handles to move the cutting head easily.

- Rip cut 54" tile. Diagonal cut 38" tile.
- Position lock cutting head
- Up to 1" plunge cut
- Sturdy wheels for easy transport
- Splash guard reduces overspray
- Blade capacity of 10" enhances cutting capacity

- One-year limited warranty
- Removable extension table adds extra workspace
- Rubber-matted cutting table
- Holes in the table divert water and waste material away from the work area. Water is recycled through these holes keeping it in the pan and off the floor

**LEGS FOLD UNDER SAW FOR EASY TRANSPORT.**

**MOTOR:** 1-1/2 HP, 115v, 60Hz, single phase. 3,450 rpm, 60 Hz with thermal overload protection

**CUTTING CAPACITY:** Depth of Cut: (8" blade) 1-1/2" • (10" blade) 2-5/8"

**BLADE CAPACITY:** 8" - 10" with 5/8" arbor size

**WEIGHT:** 190 lbs.

**DIMENSION (legs folded):** (L)66" x (W)24" x (H)27"

**INCLUDED WITH SAW:** Professional diamond blade, 45°/90° rip guide, universal wrench, water pump, water level tube, table extension, drain plug, Owner's manual.

## Manta INOX Series Saw

Stainless steel base frame; Cutting head sliding on two chromed and hardened steel bars, manual head-travel by means of a hand grip, manual raise and fall by means of a hand wheel, tilting head for 45 degree angle cuts, integrated folding legs, stabilizer bars, self-braking motor.

With the purchase of a Manta Machine, get a Silent Core GranCut III granite blade included

A new and revolutionary way to lift and handle tiles, glass, concrete, dry walls, plywood, furniture and much more. Designed for flooring professionals, glass installers, carpenters, movers, construction workers, cuisiniste and more.

Nemo Power Tools builds quality premium tools which are built to last and get the job done every time. Each product is the result of years of great engineering, development and non-stop quality testing. Grabo is manufactured in-house in our privately owned and operated factory, where we control the full cycle of production and quality control. No third party contractors are used in the production, assembly, testing and packing of Grabo. Each Grabo is marked with a serial number and individually tested for pressure and strength before it is packed for delivery. In addition, several units of each production batch are tested until destruction in our own-site lab.

- Up to 375 lbs of holding force
- 1 year warranty

Included :

- Nemo Grabo unit
- Lifting strap
- 2x Batteries (16V Li-ion)
- AC/DC Charger
- Filter & holders
- Replacement seal

## Manzelli EVO 5P/625Kgs Vacuum Lifter

- Powered by compressed air with aluminium ejector and silencer
- Lifting capacity 625kg vertical / horizontal
- N. 2 extra side bars for EVO VAM 5PN/625 KTV
- Nr. 5 Plates 450x200mm and backing plates made of stainless steel
- Nr. 4 Special rotating supports 180°
- Nr. 1 Special central rotating support 90°
- Suction plates connection and disconnection by means of slider valve made of anodized aluminium locking when in "connect" position
- Vacuum gauge made of stainless steel dipped in glycerin and with coloured scale to facilitate the control of the vacuum's level when in "connect" position
- Aluminium vacuum tank
- Pneumatic vertical-horizontal rotation from 0° to 90°
- Self-governing luminous/acoustic alarm system with solar panel and complete with battery charger (it flashes and rings if the vacuum's level is not sufficient for the lifting process)
- AIR ECONOMIZER to reduce the air consumption (works independently)
- "SAVE KITCHEN TOP" COMPLETE KIT – includes n. 1 additional arm with n. 2 suction plates mm 300x50 and n. 1 suction plate mm 400x50 – all plates equipped with quick connection and supports made of galvanized steel with rapid attack
- NEW AIR SYSTEM INSIDE THE STRUCTURE
- ALUMINUM SLIDER VALVES FOR EVERY SUCTION PLATE
- VACUUM READING DEVICE FOR EVERY SUCTION PLATE

## Manzelli EXE 16PN/360Kgs Vacuum Lifter

- Powered with compressed air with aluminium ejector and noise suppressor
- Capacity in horizontal and vertical 360 kg.
- Welded steel structure
- N. 4 adjustable arms l=1170 mm
- Nr. 16 PIAB plates - diameter 150mm - made of vulcanized aluminium
- Plates adjustable along the structure with rapid attacks and compensating springs
- Every plate is equipped with its valve to individually open and close it
- Plate connection and disconnection by means of slider valve made of green PVC, locking when the "connect" position
- Vacuum gauge with metal crate and coloured scale in order to facilitate the control of the vacuum's grade when the "connect" position
- Painted steel vacuum tank
- Pneumatic vertical-horizontal turnover from 0° to 90°
- Self-governing luminous/acoustic alarm-system (electronic alarm and vacuostato) with battery charger (points out if there is not enough vacuum to lift)

## Manzelli Atmosphere Easy Smartwall 220V x 3 SW-DB30 3M

- It is equipped with a modular structure made in stainless steel 20/10 and welded with TIG technology.
- The process of the dusts suppression works thanks to an efficient system of nozzles and filters, which create a wetted area rich in water spray, where the dust, conveyed by the air passing through, becomes wet and so it precipitates into the tank below, allowing to reach a real and effective 99% suppression.
- The PVC filters, which separate the wet area from the dry one are easily removable and completely washable, as well as the nozzles for the dust suppression.
- The pump and all the plumbing system are in stainless steel preserving the whole structure from rust. The sludge pump, even if it works properly with wastewater, is protected by a metal cage, from any accidental objects falling into the tank.
- The level of water is controlled by a probe which stops the pump every time it goes under the minimum level, so avoiding the possibility for the pump to work with a very shallow level of liquid, because this will cause some damage or break. On the electrical board panel a light will turn itself on automatically to warn that there is a block of the pump due to the lack of water.
- Smartwall is equipped with a noiseless double intaking fan, directly coupled to the electric motor. In this way, thanks to an inverter (optional) the suction capacity can be directly regulated from the electrical switch panel. No more misaligned pulleys, no more belts breakdowns.
- Last but not least, Smartwall can be shipped completely disassembled, in modules easy to assemble, without any support of a specialized technician. For this reason the transport costs can be considerably reduced.

\*\*Custom lengths are available upon request\*\* (ex. 5, 6, 7...10 meters, etc...)\*\*

### Novair 1000 Compact and Maneuverable

**HEPA**  
CERTIFIED VACUUM

#### Features

- 2 or 3 speed configurations
- Polyethylene shell is seamless and dent proof
- Audible & visual alarm

#### Benefits

- Dent proof, leak proof, polyethylene, light weight and virtually indestructible
- Easy to decontaminate or clean
- Replacement filters readily available
- Extended filter life, due to motor pulling more particulates deep into the filter

#### Specific to Novair 1000

- True 1000 cubic feet per minute air movement with all filters installed
- Vertical configuration with small footprint
- Utilizes standard HEPA filters or nuisance dust filters
- "Hand truck" configuration features non-marring skid allows for easy transport by one operator
- Compact upright design is perfect for tight spaces

**\$ 1 369.99**  
Stock No. 104081

### Novair 2000 Powerful with High Volume

**HEPA**  
CERTIFIED VACUUM

#### Specific to Novair 2000

- True 2000 cubic feet per minute air movement with all filters installed
- Horizontal configuration
- Uses standard 24 x 24 x 11.5 HEPA filters
- Integrated molded carrying handles
- Caster nest for stacking
- Custom colors and labeling available

## Dal Prete Water Filtration Systems

Dal Prete's compact series of water filtration systems is an ideal starting point for those who want to start a stone processing business, make the jump from craft to industrial production or simply add an extra filtration system in an area with limited space.

## TECNOIDEA IMPIANTI

## Tecnoidea Impianti Water Filtration System

Tecnoidea, acronym of TEcnologia Impianti di Depurazione Acqua, set up in 1981, has always specialised in design and production of plants for water purification and treatment of sludge generated by industrial processes
