### Omega Diamond Miter Base

This is an **accessory for your Blue Ripper G2 Rail Saw and Blue Ripper Jr Rail Saw** which allows you to cut 45 degree miters, including full plunge capability. The saw is rigidly mounted using four bolts and two pins. You can easily and quickly remove the saw from the miter base if you wish to do straight cuts.

\* Please note that Blue Ripper G2s manufactured before August 2019 are not compatible and Blue Ripper Jrs manufactured before November 2019 are not compatible.

- Rails and saw are sold separately
