Gorilla Grip© Original Seam Setter

The Gorilla Grip allows seams to quickly open or close just by running the palm of your hand over the roller nut. This system provides speedy and powerful clamping with a minimum amount of effort. An electric vacuum pump is used to insure reliable, consistent and powerful clamping of the pods to the deck.

00001	1,864.99	1,678.49	10%

10% OFF

Gorilla Grip© Seam Setter 2.1 (No Cams)

There are no longer cams to worry about. Four convenient, built in, leveling points now allow you to get that perfect seam giving you more space to access the seam. The second upgrade is ½" of additional space in between the pods. This along with the elimination of the cams allows the user to remove excess glue from the seam before it cures, saving time and money.

ZOLLER
expect great measures

Zoller ® Smile 420 Fully Automatic Presetter
Basic Equipment:
- High precision SK50 spindle with integrated calibration edge and spindle indexing
- Membrane keyboard for power-operated tool clamping, spindle brake, and spindle indexing
- Image processing with telecentric objective and CCD camera with integrated incident light multi LED lights
- Concentricity 0,002mm, integrated calibration spheres, spindle brake
- Measuring machine control Pilot 3.0 Software
- Operating system Windows 10, 64 bit
- Machine table
- Row adapter tray (1 row)
- Thermal label printer
- 24" anti-glare multi-touch display with solid frameless glass surface
- Screen resolution 1920 x 1080 pixel
- 1 x USB 3.0 interface
- 6 x USB 2.0 interfaces
- 2 x RJ45 network connection
- 4 GB working memory
- Storage for at least 15,000 adapters and tool steps
- Lasso Software Package

VALUE OF $1,500.00

Atmosphere
quality in the air

Manzelli Atmosphere Smartwall 220V x 3
- The dust cleaning process works due to sequence of two cleaning systems :
    - An external huge waterwall stops the primary dusts (the heaviest ones);
    - An efficient system of nozzles and filters washes intakes dusts, allowing you to achieve a real reduction of 99%.
- The external water curtain can be fully and easily opened thanks to a pneumatic jack. In this way the worker has full access at the inner part of the machine for regular maintenance (filters and nozzles).
- PVC filters split the wet from the dry zone inside the machine, are easily removable and washable, as well as the nozzles for dust suppression.
- Equipped with a noiseless double intaking fan directly coupled to the electric motor. In this way, thanks to an inverter, rotation speed and suction power can be changed. No more misaligned pulleys, no more belt breakdown.

Novair 1000
- 2 speed configurations
- Polyethylene shell is seamless and dent proof
- Audible & visual alarm
- True 1000 cubic feet per minute air movement with all filters installed
